

| Switch Manufacturer | Switch Model | | | | | | | | | Special Notes | |
|---------------------------|---------------------------------|---------|--------|---------|--------|----------|-----------|--------------|----------------|--|---|
| | | DV/2000 | PAL | PAL CAL | PAL NS | Ensemble | FrontDesk | FrontDesk SX | Ensemble Prose | | Ensemble SX |
| Atlas | 32 | | PAL | | | | | | | | Integration utilizes a direct serial interface to SMDR port. |
| | 128 | | PAL | | | | | | | | Integration utilizes a direct serial interface to SMDR port. |
| | 256 | | PAL | | | | | | | | Integration utilizes a direct serial interface to SMDR port. |
| Centrex | | | PAL | | | | | | | | Integration uses SMDI link with Central Office. Requires Dedicated SMDI Data Link |
| Comdial | Executech | | PAL | | | FD | | | | | Integration utilizes the proprietary in band switch signaling, requires Dialogic DSP |
| | DXP | | PAL | | | FD | | | | | Integration utilizes the proprietary in band switch signaling. Requires ATID |
| | DSU Impact | | PAL | | | FD | | | | | Integration utilizes the proprietary in band switch signaling. Requires ATID |
| Hitachi | HCX 5000 | | PAL | | VSE | FD | | | | | Serial Integration is used for MWI & PMS. |
| Hymax | 308 | | PAL | | | | | | | | Integration utilizes a direct serial interface to SMDR port. |
| | 32 | | PAL | | | | | | | | Integration utilizes a direct serial interface to SMDR port. |
| | 128 | | PAL | | | | | | | | Integration utilizes a direct serial interface to SMDR port. |
| | 256 | | PAL | | | | | | | | Integration utilizes a direct serial interface to SMDR port. |
| SW Bell | Landmark DKS | | PAL | | VSE | | | | | | Integration utilizes the proprietary in band switch signaling. Requires F08 software |
| ITT | ITT 3100 | | PAL | | | | | | | | Call DuVoice tech support for integration notes. |
| | Odyssey | | PAL | | | | | | | | Integration utilizes a direct serial interface to SMDR port. |
| Iwatsu | ZTD | | PAL | | VSE | | | | | | Integration utilizes the proprietary in band switch signaling. |
| | Adix | | PAL | | VSE | | | | | | Integration utilizes the proprietary in band switch signaling. |
| Lexar | 1001, 2000 | | PAL | | VSE | FD | VS-H | | | | Integration utilizes the proprietary in band switch signaling. |
| Lucent | Partner Plus | 2000 | PAL | | VSE | FD | VS-H | | | | Integration utilizes proprietary mode code voice mail signaling. |
| | Partner II | 2000 | PAL | | VSE | FD | VS-H | | | | Integration utilizes proprietary mode code voice mail signaling. |
| | Endeavor | 2000 | PAL | | VSE | FD | VS-H | | | | Integration utilizes proprietary mode code voice mail signaling. |
| | ACS | 2000 | PAL | | VSE | FD | VS-H | | | | Integration utilizes proprietary mode code voice mail signaling. |
| | Legend, Magix | 2000 | PAL | | VSE | FD | VS-H | | | | Integration utilizes proprietary mode code voice mail signaling. |
| | System 25 | 2000 | PAL | | VSE | FD | VS-H | | | | Integration utilizes proprietary mode code voice mail signaling. |
| | System 75 / 85 | 2000 | CAL | PAL CAL | | FD CAL | | | | | Integration utilizes proprietary telephone set emulation. |
| | ProLogix | 2000 | PAL | | VSE | FD | VS-H | | | | Integration utilizes proprietary mode code voice mail signaling. |
| | GuestWorks | 2000 | | | VSE | FD | VS-H | | | | Integration utilizes proprietary mode code voice mail signaling. |
| | Definity G1, G3 v6.2 or earlier | 2000 | CAL | PAL CAL | | FD CAL | | | | | Integration utilizes proprietary telephone set emulation. |
| Definity G3 v6.3 or later | 2000 | PAL | | VSE | FD | VS-H | | | | Integration utilizes proprietary mode code voice mail signaling. | |
| Macrotel | 56 | | PAL | | | | | | | | Switch has programmable in-band integration. |
| Mitel | SX 50, MS 55 | | PAL-SX | | | FD-SX | VS-SX | | | | Available in COV configuration ONLY Requires MS 55 software |
| | SX 100 / 200 Analog | | PAL-SX | | | FD-SX | VS-SX | | | | Available in COV configuration ONLY |
| | SX 200D / EL / ML | 2000 | PAL | | VSE | FD | VS-H | | | | In ONS configuration Requires 1004 or higher software. |
| | SX 200D / EL / ML | | PAL-SX | | | FD-SX | VS-SX | | | | In COV configuration Requires 1003 or higher software. |
| | SX 2000 | | PAL-SX | | VSE | FD | VS-H | VS-SX | | | Available in COV configuration |
